V-TAS
MULTI GAUGE KIT

Traditionally, pressure measurement primarily relied on three separate products: gauge manifolds, charge hoses, and charge valves. The V-TAS series is a new gauge that integrates all three functions into one unit.

The compact multi-gauge that handles everything from vacuum work to all services is finally here!

Control Valve Structure

V-TAS PRO
TA142PD

Unit Connection

While hose connections were common, V-TAS enables direct connection of equipment to the service port, reducing connection points and significantly minimizing the risk of gas leaks during operation.

Hose Connection

Connection: 5/16" Flare

Seal cap

Includes a chain-attached seal cap to protect the tip when not in use. 5/16" flare

Pressure Relief Valve

※Only for Vacuum

Vacuum / Filling / Pressure resistance / Inspection / Recovery

Specification

V-TAS Multi Gauge Kit

V-TAS Series

Analog Gauge (V-TAS)	TA142PK	Digital Gauge (V-TAS PRO)	TA142PD

Part No	TA142PK	TA142PD
Connection	5/16" FLARE	
Valve	Ball Valve	
Power supply		Battery-powered (3V lithium battery CR2450)
Function	Only for Vacuum	5 functions
Other	Push-to-seal function • Chain-attached seal cap
