No. TA918TA-1

Quantity 1pc

Weight Approx.180g

Material Polyethylene (PE)

Circumference Approx.220cm

Easy Installation with Elastic Cord and Stopper

Air Conditioner Width: Max. 90 cm

Drain Tube Length: Approx. 180 cm

⚠ Please Read Before Use

- Before use, check the cover for any damage, such as holes or tears.
- Cut the drain tube to an appropriate length so that it does not become tangled during use.
- This product does not completely prevent water from leaking through. Before cleaning, provide sufficient protection using masking tape or other suitable materials.
- Repeated use may cause the elastic band to stretch or the sheet to wear out. To prevent the cover from coming off or water leakage during use, we recommend limiting use to approximately 1–3 times and replacing it as necessary.
- Do not use near open flames.
- Do not pull the cover excessively or allow it to come into contact with sharp or protruding objects, as this may cause damage.
- Take care to prevent water from coming into contact with electrical components, wiring, or other electrical systems.
- After cleaning, thoroughly remove any moisture remaining on the cover before removing it.
- Store away from direct sunlight, high temperatures, and high humidity.
- Keep out of reach of children.
- During work, be careful of falling from stepladders or other elevated locations.
- Do not use outdoors or for any purpose other than its intended use.
