A/C

Floor Type  
A/C

Split A/C

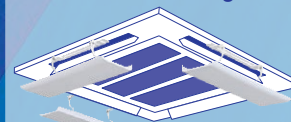

To save energy by spreading the wind throughout the room, and to prevent overcooling by direct exposure to the wind.

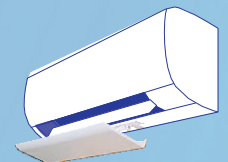

Part No	Name	Price
<b>TA978TA</b>	Air Conditioner Deflector	JPY 2,930

- The angle can be adjusted up and down freely.  
(Upward for cold air, downward for warm air, etc.)
- Comes with an anti-fall strap.
- The white color matches the air conditioner with the room.
- Attach an insulation mat to prevent condensation.
